

# **LAUDERHILL POLICE OFFICERS' RETIREMENT PLAN**

## **STATEMENT OF INVESTMENT POLICY GOALS AND GUIDELINES**

**Adopted: December 6, 2017**

### **PURPOSE**

The Board of Trustees of the City of Lauderhill Police Officers' Retirement Plan has established this Statement of Investment Policy. This policy has been identified by the Board as having the greatest expected investment return, and the resulting positive impact on asset values, funded status, and benefits, without exceeding a prudent level of risk. The Board determined this policy after evaluating the implications of increased investment return versus increased variability of return for a number of potential investment policies with varying commitments to different asset classes.

This Statement of Investment Policy is intended to complement the investment guidelines provided in all applicable State Statutes and local ordinances. The purpose of this Statement is to:

- 1) Provide the investment manager a more accurate understanding of the Trustees' investment objectives and,
- 2) Indicate the criteria by which the investment manager's performance will be evaluated.

### **INVESTMENT MANAGER RESPONSIBILITIES**

1. Within the guidelines and restrictions set forth herein, it is the intention of the Board of Trustees to give each investment manager full investment discretion with respect to assets under its management.
2. The investment managers shall discharge their responsibilities in the same manner as if the Fund were governed by the fiduciary responsibility provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Although the Fund Trustees acknowledge that ERISA does not apply to the Fund as a governmental fund, it hereby imposes the fiduciary provisions of ERISA upon each investment manager whose performance shall conform to the statutory provisions, rules, regulations, interpretations and case law of ERISA. Each investment manager shall acknowledge, in writing, that it is a named fiduciary of the Fund.
3. Each investment manager is expected to provide any reasonable information requested by the Board of Trustees. At a minimum, each manager shall provide a quarterly report detailing their investment activity, the portfolio's current value and any changes in investment philosophy or strategy. This report shall also identify and describe any significant changes in the personnel or ownership of the investment management firm. Each investment manager is expected to meet with the Board of Trustees or their designated representatives periodically to review investment performance and philosophy.
4. Unless otherwise provided by the Plan's Custodian, each investment manager will manage portfolio activity to minimize uninvested cash balances.
5. Each investment manager shall be responsible only for those assets under their management.
6. It will be the responsibility of each investment manager to review the monthly valuations provided by the Fund's custodian and to note, in writing, any significant discrepancies from the valuations provided in their own reports.

### **Florida Statute 112**

1. EXPECTED ANNUAL RATE OF RETURN: With consideration to rates of return from different asset classes, the Board of Trustees has crafted its investment program in order to deliver an expected rate of return similar to that of the actuarial assumed rate. The Board shall determine for each actuarial valuation, the total expected annual rate of return for the current year, for each of the next several years and for the long term thereafter. The total expected annual rate of return is anticipated to be similar to the actuarial assumed rate of return. This determination is to be filed with the Department of Management Services and with the plan sponsor and consulting actuary.

2. CONTINUING EDUCATION: The Board of Trustees relies on its consultants and professionals to provide continuing education on pension and investment issues. The Board of Trustees also recognize state and regional conferences as a source of continuing education. The Trustees are encouraged to attend conferences, schools, and other functions periodically in order to fulfill this requirement.
3. FILING OF INVESTMENT POLICY: The investment policy is to be promptly filed with the Department of Management Services, plan sponsor and consulting actuary. The effective date of the investment policy and any amendment thereto shall be the 31st calendar day following the filing date with the plan sponsor.

#### **Florida Statute 215**

1. Direct investment in "Scrutinized Companies" identified in the periodic publication by the State Board of Administration ("SBA List", updated on their website [www.sbafla.com/fsb/](http://www.sbafla.com/fsb/)), is prohibited. Any security identified as non-compliant on or before January 1, 2010 must be divested by September 1, 2010. For securities identified after January 1, 2010 that were not deemed "Scrutinized Companies" at the time of purchase, which subsequently exceed the applicable limit or do not satisfy the applicable investment standard, such excess or noncompliant investments may be continued until it is economically feasible to dispose of such investments in accordance with the prudent man standard of care, but no additional investment may be made unless authorized by law or ordinance. An action plan outlining the investment "hold or sell" strategy shall be provided to the Board immediately. However, if divestiture of business activities is accomplished and the company is subsequently removed from the SBA list, the manager can continue to hold that security.
2. For indirect investments in "Scrutinized Companies", the Investment Consultant, on behalf of the Plan, shall send a letter to any pooled fund referring the investment manager to the listing of "Scrutinized Companies" by the State Board of Administration ("SBA list"), on their website [www.sbafla.com/fsb/](http://www.sbafla.com/fsb/). This letter shall request that they consider removing such companies from the fund or create a similar actively managed fund having indirect holdings devoid of such companies. If the manager creates a similar fund, the Plan shall replace all applicable investments with investments in the similar fund in an expedited timeframe consistent with the prudent investing standards. For the purposes of this section, a private equity fund is deemed to be an actively managed investment fund. However, after sending the required correspondence, the Plan is not required to sell the pooled fund.

#### **INVESTMENT OBJECTIVES**

Given the purpose of the Lauderhill Police Officers' Retirement System stated above, the Board of Trustees recognizes the necessity of a long-term horizon when formulating investment policies and strategies. However, shorter-term investment goals have been established and are intended to provide quantifiable benchmarks to measure and evaluate portfolio return and risk.

Most investment styles require a full market cycle to allow an investment manager to demonstrate his abilities. As most market cycles last from three to five years, performance results will be measured over a three to five year period. Performance over shorter time periods will be monitored as a means of identifying the trend of results.

The specific investment objectives of the Lauderhill Police Officers' Retirement System are as follows:

**Absolute Return Objective:** To achieve an average annual rate of return greater than **7.50%** over the longer term. This absolute return objective will be evaluated in the context of the prevailing investment market conditions.

**Market Return Objective:** To earn a total rate of return over the longer term, which exceeds the return of a Target Index. The Target Index for the Lauderhill Police Officers' Retirement System is defined as a **35%** investment in the Russell 1000 Stock Index, a **10%** investment in the Russell 2500, a **15%** investment in the Europe Australasia and Far East (EAFE) Stock Index, a **10%** investment in the CPI+4%, a **15%** investment in the NCREIF Property Index and a **15%** investment in the Barclays Aggregate Bond Index.

**Peer Return Objective:** In addition, it is expected that the rate of return earned by the Fund will rank in the above average when compared to a representative universe of other, similarly managed portfolios.

**Volatility:** The volatility of the Fund's total returns is expected to be similar to that of the Target Index and will be evaluated accordingly.

**The above investment objectives have been established for the entire Lauderhill Police Officers' Retirement System. The specific investment objectives for each investment manager will be outlined in addenda to this overall Statement of Investment Policy.**
